- Business Recommendations
- **Focus on high-performing products:**** Laptop generated the highest sales, so its sales drivers should be analyzed to understand the reasons behind its strong performance.
 - **Analyze Cairo market performance:**** Cairo generated the highest sales, so customer behavior and demand in this city can be studied further.
 - **Monitor profit margins:**** Keyboard achieved the highest profit margin, so products with strong margins should be monitored alongside products with high sales.
 - **Use multiple KPIs:**** Product performance should be evaluated using Sales, Profit, Profit Margin, and Quantity rather than relying on Sales alone.
